TRUSTED VETERINARY & ANIMAL HEALTH SOLUTIONS

STRATEGIC PARTNER: N-TECH KOREA

NAIK KHALID HAMIDI
(PVT) LTD

ABOUT US

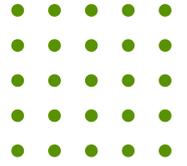

We are a professionally managed veterinary and animal health distribution company committed to delivering high-quality, safe, and effective veterinary products. Our focus is on connecting global manufacturers with local markets by providing reliable distribution, regulatory support, and market development.

We believe in quality, compliance, and long-term partnerships. That's why we work only with certified global manufacturers.

NAIK KHALID HAMIDI
(PVT) LTD

OUR VISION

To become a leading veterinary distribution company by providing innovative and trusted animal healthcare solutions

OUR MISSION

- To provide high-quality veterinary products
- To build a strong bridge between global manufacturers and local markets
- To develop long-term partnerships based on trust and transparency
- To deliver sustainable solutions to farmers, veterinarians, and distributors

NAIK KHALID HAMIDI
(PVT) LTD

GLOBAL PRESENCE

We proudly collaborate with 20+ international manufacturing partners across multiple countries.

NAIK KHALID HAMIDI
(PVT) LTD

OUR KEY GLOBAL PARTNER

1.

N-Tech Korea

N-Tech Korea is a South Korean company, based in Incheon, that specializes in exporting, importing, and supplying a diverse range of products, including health, beauty, and industrial goods. Operating since 2002, the firm acts as a buying agent and offers services such as documentation and translation for international partners.

- **Business Focus:** They specialize in sourcing and supplying South Korean products to overseas markets, focusing on cost-effective, high-quality items.
- **Services:** In addition to product supply, they provide buying agency services, translation, and logistical support.
- **Target Markets:** They serve a global client base, with a focus on facilitating trade for international partners.
- **Location:** Based in Incheon, South Korea.

NAIK KHALID HAMIDI
(PVT) LTD

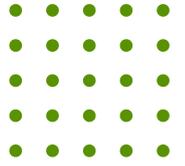

WHY N-TECH KOREA

- 1** Korea-based advanced manufacturing
- 2** International GMP certified facilities
- 3** Strong R&D backed formulations
- 4** Proven global market acceptance
- 5** Consistent quality & batch reliability
